

moveurope!

MOBILITY OF REFUGEES IN EUROPE

moveurope! LOCAL GROUPS

Become part of a european-wide **network** for more
mobility of refugees in Europe!

You believe everyone should have the right to **freedom of movement**?
You would like to engage actively
in the **rights of refugees in Greece and the EU**?

Let´s build up together a moveurope! network in Athens!

Contact us until the **10/03/2020!**

The project moveurope!

What is our aim?

moveurope! enables legal migration ways for refugees with a residence permit of another EU-member state. Many thousands of refugees reach the EU crossing the external border, primarily in Italy, Greece and Spain. European Law requires them to apply for asylum in one these countries and to reside there permanently. The current EU-legislature barely enables a legal secondary migration in other EU-states. Until now, the only options would be a new asylum procedure or a life without a safe residence status.

moveurope! constitutes a way of legal migration through the visa procedure for education purposes (§ 17 German Residence Code-GRC). As a necessary step on the way to an apprenticeship moveurope! organizes, with the help of a network of volunteers, hospitation internships (3 months) and voluntary services (12 months) for refugees.

moveurope! is a project of the association **migration_miteinander e.V.** with its central place in Witten, North Rhine-Westphalia in Germany, which was founded by young committed people in 2017.

CONTACT

What do we do?

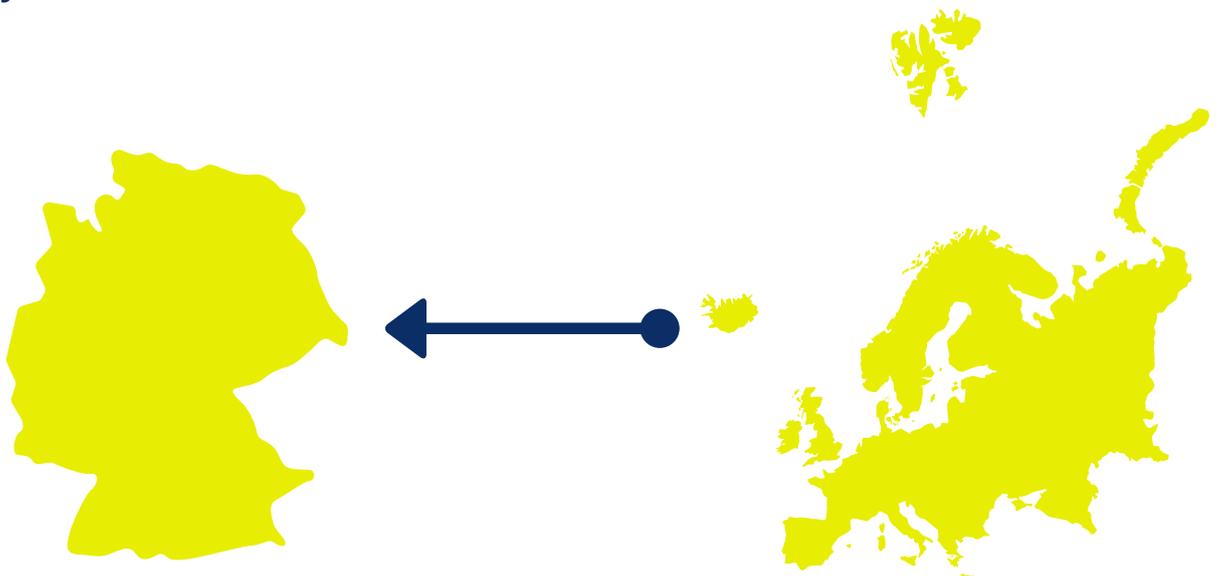

Currently, we offer in our moveurope! information-center in Witten (Germany) and in cooperation with our Italian partner Associazione Interculturale Universo in Bologna (Italy):

- **legal consultation** regarding the visa procedure and necessary documents,
- **individual consultation and assistance:** preparation of documents, necessary administration, linguistic assistance, accompaniment during the visa procedure,
- **orientation and consultation** regarding the selection and search for suitable mobility possibilities,
- **organization of trainings** for social workers, advisers, refugee supporters as well as refugees themselves who are interested in the legal fundament for mobility possibilities,
- **organization of events and publicity,**
- **we offer concrete mobilities for refugees** in our association and in cooperation with partners in Witten and surroundings, e.g. two European Solidarity Corps (europ. voluntary service) in our office in Witten.

Target group of moveurope!

- **Refugees, who already reside in Germany with a residence permit of another EU-member state** and look for a possibility to live and work legally in Germany (so-called **Dublinees**)
- **Refugees, who look for a possibility to migrate secondarily to Germany in a legal way.**

The local groups in Greece

Who?

- at least **5 persons**, between **18-30 years old**
- each group member needs to have his/her **legal residence in Greece**.
- You are committed to the goals of moveurope!, want to stand up actively for refugees' freedom and possibility of movement, want to be part of a nation-wide network and to exchange ideas with other young people.
- Each group picks **a local head of the group (legal representative)** who will be the reference person for migration_miteinander and is therefore part of the network department of moveurope! As **the local head of the group** you are responsible for the management and administration (budget-monitoring, documentation of activities, planning of team meetings etc.) of the local group. Of course you will be prepared and supported by our team and you can always share responsibility with your group members. You, as the first contact person, would be committed to take part in additional online-meetings twice a month.

Why do we want to build up local groups?

In order to distribute the activities and offers of moveurope!, we need a **strong network** – in Germany, Greece and around Europe. Our greatest aims are to reach as many people as possible, to spread awareness of the (im)mobility of refugees in Europe and to inform as many refugees as possible about their rights and possibilities of movement within the EU. The local groups support us to build up and to strengthen a network around Greece.

Your benefits from the participation in a local group:

- get to know new people in your city and Europe-wide who share your same interests (i.e. migration policy etc.)
- be part of a European network
- participation in a 5-day intensive European preparation training with the local group members of other EU countries in June/July 2020
- acquire (new) in depth knowledge and/or share your knowledge about the current EU legislation and already existing legal migration pathways for refugees in Europe
- learn about moveurope!'s legal framework and get an insight on our counseling strategy
- do a voluntary work in a group, by getting financial support and regular coachings by migration_miteinander and other experts
- after successfully accomplishing, you'll receive the Erasmus+ certificate for volunteering (Youthpass) and a certificate from our association
- for the Legal representative/Group representative: regular trainings in project management and budget monitoring

Where?

We are currently planning to build up local groups in the following cities: **Athens** and possibly in one or two Greek islands with the cooperation of the Refugee Law Clinics of Germany. Our long-term aim is to build up local groups in Germany, Italy, Greece and all around Europe in order to create a bigger network.

When? Starting date and duration

Duration: **12 months**

Composition of local groups: latest until 10/03/2020

Application for funding: until 30/04/2020 (see below)

Duration of implementation: Starting date is **01/09/2020 (bis 31/09/2021)**

What? Activities

The local groups support us to create a nationwide network in Greece.

Therefore, you operate in the name of the project moveurope!, meaning you would become familiar with our values and aims and are committed to represent them in public.

All local groups have the common aim of networking for moveurope! which contains:

- spreading information about the existing mobility possibilities and the consultation offers of moveurope!
- sensibilise the local population about the movement rights and the (im)mobility of refugees in the European area.
- awareness spreading about the Dublin III Convention and its consequences on the life of refugees in Europe, i.e. Dubliners and their rights; deportation of refugees and consequences
- contact institutions and employers who would like to be part of our network and offer concrete mobilities for refugees (voluntary services, apprenticeships)

Each local group decides autonomously, HOW to get active:

Whether (information-)events for help-networks for refugees, campaigns, workshops for refugees themselves (adapted to the target group), legal work-groups, info-stands at your Uni, a fundraising-marathon, building up a consultation or mobility desks for refugees in your city (similar to Street Lawyers), information evenings with presentations – you are allowed to get creative!

The target group of your local activities is the local population and/or refugees. Each local group can decide autonomously who you want to address or reach out to. It is about the sensibilization for mobility rights and already existing legal secondary migration possibilities in the framework of moveurope!. Whether you will only work with refugees, social workers, students at University or the local population in general is completely up to you.

Important for moveurope! is that the local groups would be available **as mediators between moveurope!'s representatives in Germany and potential (refugee) candidates who would like to migrate legally from another EU-member state to Germany**, in order to be able to offer together a smooth organization of each individual mobility.

Accompaniment and support by migration_miteinander e.V.

You, as a member or head of the local group, will be prepared, trained and supported during the implementation of the project. For this purpose we will offer

- **a professional coaching once a month**
- **an intensive, 5-day European Kick-Off Training to introduce two members of each local group to the relevant legal framework, taking place in Witten, Germany in July 2020**
- **an intensive, 5-day European Follow-Up Training, taking place in Bologna, Italy in July 2021**

At the same time, we will be kept track about your local activities regularly. Furthermore, there will be regular exchange meetings between all local groups (off-and online, see below).

Meetings of the local groups in Greece:

- **every fourth month all the local groups in Greece come together to connect between each other**, meaning **3 meetings** during the duration of the implementation: **Kick-off meeting, mid-term meeting, closure meeting.**
- During the duration of the implementation the local groups will be furthermore connected actively online. We will found an own online platform to exchange ideas and support each other.
- In case of legal questions the local groups can always directly get in touch with our info-center in Witten, Germany if you cannot answer something right away.

Funding:

The local groups will be funded by the funding programme of the European Solidarity Corps from the Erasmus+ of the EU. You can find more information here:

<https://www.solidaritaetskorps.de/mitmachen/solidaritaetsprojekte/>

The funding per month amounts to 500€ per month

Use of funding:

The three national meetings of the local groups will be funded out of the funding resources. Besides that, you can manage the EU-funding in your city as you wish!

Plus: additional arising costs for the participation of adolescents with fewer chances, in our case especially young refugees (18-30 years old), can be refunded up to the total cost. Also, you can apply for the refund of extra costs for intercultural mediation.

Deadline for the application: 1/04/2020

Detailed application procedure:

migration_miteinander would like to contribute to a high independence and allegiance of the local groups. Part of this is that you are actively part of the project management, from the beginning (application) until the end (final report) and that you are familiar with all the necessary steps. At the same time, we, as an association, have already had experience with the application procedure for the Solidarity Corps and will support you.

That is why we offer you the following application procedure:

1. Your group will create a group account for the EU-login with a suitable email address. This account is a condition in order to have access to all the portals of the European Commission. You can create the account here: [EU-Login](#)
2. **Each member of your team registers separately in the European Youth Portal.** For this, you need to click on the following link on the button „Take part in the Solidarity Corps!“ Then, each one of you will receive their own personal participation number (PRN): [Europäisches Jugendportal](#)
3. The **"Legal Representative"** (meaning the person of your team who submits the application for your group, takes care of the group's organization and signs all the documents) **has to register once on the platform of the EU-Commission (Organization Registration System) and receives a personal identification number (Organization ID) for the whole team.** You will find the website for the registration here: [Organisation Registration System](#) and more information here: <https://www.solidaritaetskorps.de/mitmachen/solidaritaetsprojekte/registrierung-solidaritaetsprojekte/>
4. migration_miteinander will give you access to a pre-formulated application form which you can adjust to your local needs and ideas.
5. As soon as you gathered 5 members for your local group, the application can be submitted. Therefore, we will have a **Skype-meeting with the duration of 1,5h to explain you the application form and all the important steps.**
6. For the **application period until the 1/04/2020** we will be by your side as supporters and you can always contact us if questions arise.

You are ready? Then let's go!

Here you can see a summary of the most important steps:

	moveurope! local groups	Time period
1	Interested persons can contact us directly through moveurope@migrationmiteinander.de or can call us +49(0)1775832322 (Karla Kästner). We are excited to get to know you!	from now on until 10/03/2020
